EDUCATION

Anurag University

Bachelor of Technology in Computer Science Engineering (AI & ML) — CGPA: 9.58

Hyderabad, India

2022 – 2026

PROJECTS

Real-Time Team Collaboration Platform | React 18, TypeScript, Supabase, PostgreSQL, Edge Functions | [Live](#)

- Architected a multi-tenant collaboration platform on React 18, TypeScript, and Supabase PostgreSQL with 10+ normalized tables, 25+ Row-Level Security policies, and role-based workspace access, ensuring 100% data isolation across tenants
- Built a real-time collaboration engine powering live chat, an in-browser code editor with 4 language modes and optimistic UI updates using Supabase Realtime subscriptions across 3+ synchronized modules
- Integrated 3 AI-powered productivity workflows (meeting summaries, task recommendations, mood insights) using Supabase Edge Functions and Google Gemini, returning 3–4 contextual recommendations per request

TripSageAI | React, TypeScript, Supabase, Gemini AI | [Live](#)

- Architected a full-stack AI travel platform serving 130+ destinations with real-time itinerary generation achieving sub-3s response times
- Built a multilingual voice interface supporting 5 Indian languages using speech transcription and translation pipelines for accessibility-focused travel planning
- Designed a scalable backend using PostgreSQL RLS, Supabase Realtime, and 15+ serverless Edge Functions with JWT-secured APIs and live trip collaboration

TrustGuard AI | Python, DistilBERT, MobileNetV2, PyTorch, SHAP | [GitHub](#)

- Engineered a multimodal AI pipeline integrating DistilBERT and MobileNetV2 for fake content detection achieving 92% accuracy
- Performed large-scale data preprocessing and optimized model workflows for improved prediction performance
- Integrated explainable AI techniques using SHAP and Grad-CAM for transparent model interpretation and trust scoring
- Developed a Streamlit-based interface for real-time content authenticity analysis

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Frameworks & Technologies: React.js, Node.js, Express.js, Socket.IO, MongoDB

Developer Tools: Git, GitHub, Google Cloud Platform, VS Code, Jupyter Notebook

Core Subjects: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

CODING PROFILES

LeetCode: Solved 464+ problems (188 Medium, 15 Hard) — Contest Rating: 1467

ACHIEVEMENTS

Walmart CodeHers 2025 Finalist - Ranked among the Top 250 teams out of 113000+ participants

Cisco Ideathon 2025 Finalist for developing TrustGuard AI, a multimodal fake content detection solution

Winner of CSI Regional 24-hour Hackathon for building a Real-Time Collaboration Platform

POSITIONS OF RESPONSIBILITY

Senior Team Lead, LiteraZe Society – Led student teams, mentored 20+ junior members, and coordinated technical and literary initiatives, increasing engagement across workshops and campus events.

Content Team Lead, ENIGMA Club AU – Coordinated cross-functional collaboration for student outreach, developing promotional materials that boosted event attendance by 25% over previous semesters.

Public Relations, Google DSC Anurag University – Managed outreach campaigns and promotional activities for 10+ technical events, strengthening campus visibility and driving student participation. “
